

Capabilities and productized mandates.

Structuring. Executing. Delivering.

Cross-border project management and advisory, coordinated from Dubai across the GCC and African markets — with the structure, confidentiality, and standards that international mandates require.

Five core disciplines.

The foundation the practice draws on across every mandate.

01 Cross-Border Project Structuring

We help leaders design clear, bankable project structures across GCC and African markets — aligning stakeholders, regulatory pathways, and execution realities.

02 Feasibility & Readiness Assessment

Rapid, structured evaluation of project viability, risks, gaps, and required enablers. Built for ministries, institutional families, and operators entering new markets.

03 Execution Support & Coordination

Hands-on advisory during project rollout: counterparties, documentation flows, timelines, and cross-border coordination with disciplined oversight.

04 Government & Institutional Advisory

Support for public-sector initiatives, PPP-style engagements, and strategic programs requiring clarity, structure, and regional intelligence.

05 Regional Intelligence & Market Insight

Concise, actionable briefs on sectors, jurisdictions, and operators across the GCC and Africa — enabling informed decision-making and confident execution.

Mandate types.

Productized mandates — clear scopes, defined deliverables, explicit outcomes.

01

Cross-Border Project Setup

FOR

Investors, operators, ministries, institutional families

WHAT WE DELIVER

- Project structure blueprint
- Stakeholder map
- Regulatory pathway (high-level)
- Execution roadmap
- Risk & gap overview

OUTCOME

A clear, actionable structure ready for internal approval and next-step execution.

02

Feasibility & Readiness Diagnostic

FOR

Early-stage projects, government initiatives, expansion plans

WHAT WE DELIVER

- Feasibility snapshot
- Readiness scoring
- Key risks & mitigation
- Required enablers
- Go / No-Go advisory

OUTCOME

Fast clarity on whether the project is viable — and what must be done next.

03

Execution Support & Coordination

FOR

Projects already approved or in rollout

WHAT WE DELIVER

- Cross-border coordination
- Counterparty alignment
- Documentation flow oversight
- Timeline & milestone tracking
- Issue escalation & resolution

OUTCOME

Disciplined execution with structured oversight and reduced operational friction.

04

Government & Institutional Advisory

FOR

Ministries, public entities, PPP-style initiatives

WHAT WE DELIVER

- Program structuring
- Stakeholder alignment
- High-level regulatory mapping
- Execution frameworks
- Advisory notes & briefs

OUTCOME

Clear, structured guidance for complex public-sector mandates.

Mandate types, continued.

Productized mandates — clear scopes, defined deliverables, explicit outcomes.

05

Regional Intelligence Briefs

F O R

Investors, operators, family offices entering new markets

W H A T W E D E L I V E R

- Country snapshot
- Sector overview
- Operator landscape
- Opportunity & risk matrix
- Strategic positioning guidance

O U T C O M E

Fast, actionable understanding of markets across the GCC and Africa.

06

Project Screening for Institutional Families

F O R

GCC family offices evaluating cross-border opportunities

W H A T W E D E L I V E R

- Opportunity assessment
- Counterparty credibility signals
- Execution risk overview
- Structuring options
- Advisory recommendation

O U T C O M E

Clear visibility on which opportunities deserve attention — and which do not.
